Good afternoon Crime Watch Members,

The Alberta Provincial Rural Crime Watch Association in collaboration with the RCMP and "K" Division have launched a new app to allow you to find the number of the local detachment to report suspicious activities when you are in different areas of the Province. To download this app:

Access the APRCWA website on your phone and click the learn more button on the front page (step one) from there it will open up the app you will have the option to add to the homepage of your phone (step two). Please see the photos below to give you a visual of how you can download the app to your phone. This works for both Andriod and iPhones.

The instructions are quite easy. We can all continue to report suspicious activities wherever we are in the Province with this easy to use app.

If you have any further issues or questions you can call (780) 446-0561.
